### **DETAILED ACTION**

The Amendment, filed on May 12, 2004 has been entered and overcomes the rejection of claims 6 and 7, under 35 U.S.C. § 112, first paragraph.

Cancellation of claim 6 and addition of new claim 8 have been entered.

Applicant's arguments regarding claim 8 (same as cancelled claim 1) filed May 12, 2004 have been fully considered and are persuasive. The rejection of the application has been withdrawn. No any prior art disclosing applicant's invention has been found and therefore the application is in condition for allowance.

### ***Allowable Subject Matter***

Claims 2-5,7,8 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Claim 3 is allowed for the reason which has already been cited by the examiner in the previous office action.

Claims 2,5 and 7 are allowed because of their dependency status from claim 3.

Regarding claim 8, the references of the Prior Art of record fails to teach or suggest an arc tube with pinch sealed portions having the combination of the limitations as set forth in claim 8, and specifically comprising the limitation of average roughness of surface of each of the tungsten electrodes in contact with pinch seal portion being 3 $\mu$ m or smaller.

Regarding claim 4, claim 4 is allowable for the reasons given in claim 8 because of their dependency status from claim 8.

Art Unit: 2879

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
